

TriStar
Monitoring LLC

Questions to Ponder

All the services you will ever need in your central station now and in the future. 

Using automation offers our dealers services that set you apart from the rest.

Experience TriStar the next generation of monitoring.

*Helping to
automate
your life*

We Get It!

If you are an alarm company, using a contract central station, things you need to know:

Q DO YOU OWN YOUR DATABASE?

Will your current provider give you a complete copy of your database upon your request at any time?

Q DO YOU OWN YOUR ACCOUNT HISTORY?

Will your current provider give you your account history upon your request at any time? If so, how far back, one year, or more?

Q DO YOU OWN YOUR RECEIVER AND VOICE LINES?

If your current provider has control of your receiver and voice lines, will they release them to you upon your request at any time?

Q DO YOU OWN YOUR SIM CARDS AND YOUR CELLULAR COMMUNICATORS?

Will your current provider release them to you upon your request at any time?

Q DO YOU OWN YOUR IP ADDRESS?

Will your current provider release them to you upon your request at any time and can you transfer them?

If you don't know the answers, to the above questions, you need to find out. If you don't have it in writing, you need to get it. You need to protect your company today, and in the future.
